

Africa – Wild Frontiers

Wild Frontiers , the Africa Travel Specialists, present an exciting continent, offering the traveller a variety of destinations and travel styles. We take pride in our ability to make memorable safaris on this remarkable continent, which has been our home for several generations.

We offer a full range of safaris and tours throughout Africa , from small group departures to private itineraries – mobile camps to top end lodges – we design YOUR holiday to suit you. We understand that this may be your only journey to Africa – so we want to ensure that it meets all your expectations, and more.

We believe what makes us stand out from the crowd of other tour operators is our knowledge, experience, and commitment to service excellence and to the continent. For over 25 years, our directors have been designing, guiding, and taking people all over the continent. We understand what works – from personal experience – and love putting together unusual safaris for those intrepid explorers!

Our head office is in South Africa, but we have three dedicated operations currently employing in excess of 200 staff throughout these regions, and our commitment to these special individuals ensures loyalty and growth within the company.

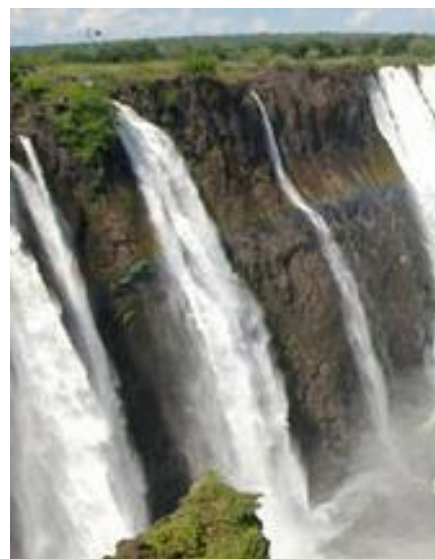

Uganda offers gorilla and chimpanzee tracking, fishing, bird watching, and excellent game viewing in the Queen Elizabeth National Park and Murchison Falls areas.

Africa – Wild Frontiers

Tanzania needs little introduction – boasting the Serengeti, Ngorongoro, Kilimanjaro ‘travel icons’ as well as a great many other parks and natural habitats... just waiting to be explored!

Zimbabwe, after a dark ten years, is bouncing back! Famous for the warm welcome from its people and varied game and bush activities. In all these areas we own safari vehicles, lodges, tented camps and boats for cruising & fishing – so you are not dealing with a middle-man!

Let us take your safari dreams and turn them into reality – creating memories to last a lifetime.

Other areas we travel to include: Botswana, Zambia, Namibia, Kenya, Rwanda, Mali, Ethiopia, Gabon and Congo.

We provide plenty of options to suit everyone, but if you cannot find your dream getaway, contact us and we will design a personalised adventure just for you.

Wild Frontiers was established in 1991 by **John and Debbie Addison** as a Specialist Tour Operation offering safaris into East, West and Southern & Central Africa. John is a seventh generation South African who has guided in most parts of Africa for over 25 years, and Debbie is English, having lived in Africa for over 30 years. They are both passionate about this incredible, diverse continent.
