

China / Hong Kong – Eastern Journeys

EASTERN JOURNEYS
Travels through China

See the real China at your own pace.

Eastern Journeys believes that travelling shouldn't be about waking up in a strange hotel room and wondering "oh heck, it's Wednesday, so what city does that mean we are in....."

Travelling through China, we hope, will open your eyes to the dynamism of this fascinating country, the warmth of its people, the hustle and bustle of its cities and the beauty of its countryside.

China is a unique travel destination and it offers tremendous variety and diversity - from the old Imperial capital of Beijing to the mountain scenery and exotic hill tribes of Yunnan Province, from its wonderful historic sights such as the Terracotta Warriors in Xian to the incredibly fresh seafood that is served as part of Shanghai's delicious cuisine, from the spirituality of Tibet to the almost humbling Silk Road and its incredible Buddhist cave art.

Enjoy the cultural splendours of this country but maybe also take time to understand what the 'New China' is all about and we hope that our experienced local staff will add to the enjoyment of your journey through this amazing country.

China offers travellers fantastic opportunities and experiences and Eastern Journeys would be honoured to help you put together an itinerary that is uniquely created so that you can travel at your own pace to the parts of China that interest you.

Experience the best China has to offer, from 'private access' visits to exploring lesser visited areas, from enjoying time spent playing with a baby Panda to a day exploring with a Historian. Eastern Journeys designs and manages some of the most creative of bespoke Chinese journeys and covers the entire country including Hong Kong and Tibet.

'Private Access' opportunities can be made available at incredible sights such as Xian's Terracotta Warriors and at Beijing's Forbidden City allowing one to truly appreciate the magnificence of these monuments.

Maybe taking a casual cooking lesson from our 'Beijing Housewives' in a traditional courtyard home is more your thing, or perhaps being privately introduced to Chinese teas by our Master or even having lunch atop the Great Wall. For those with more energy consider a day of hiking along the Great Wall as a wonderful alternative to a more traditional visit or even joining a Kung Fu lesson at a Martial Arts University.

China offers monuments simply oozing history, cosmopolitan cities, stunning countryside, relaxing options, great restaurants and an introduction to one of the world's fastest growing economies.

Memorable experiences are what we enjoy including in our journeys and whether it's an introductory visit, a family gathering, a corporate event or soft adventure that's the focus, we have built an enviable reputation for delivering the style and pace of that unique, personally tailored journey each guest seeks.
