

Mauritius – Coquille Bonheur

In Mauritius “Coquille Bonheur” is the shell par excellence - the emblem of a refined distinction and the relaxation for the eyes and spirit. This shell has a strong symbolism in the mind of the Mauritians. It is also the symbol of good-luck and happiness and inspired the creation of the exclusive receptive operator, Coquille Bonheur. CB associated the ‘par excellence’ shell to its prestigious ‘par excellence’ services.

Having judiciously selected a dedicated team of professional staff, each of them with a wealth of experience in their own field and passionate about the destination. All staff including guides and drivers are dressed in uniforms and medical check-up are undertaken regularly.

The guides and drivers are all fluent in English and French, and some speak a third language. The staff have shaped the faith of our company with a set of values and beliefs, a whole philosophy that lies right at the heart of our operation.

We continue to build greater pride in our team.
