

RELAIS SANTA CROCE  
FIRENZE  
★★★★★

**GOLDEN TOUR: FROM DE' MEDICI'S COURT TO RELAIS SANTA CROCE**

With a professional private guide guests will visit a small and relatively unknown jewellery workshop, located in an ancient Tower just a few steps from the Ponte Vecchio. It will be intriguing to watch a demonstration of gold being worked, on old and worn working surfaces with ancient implements by highly-skilled hands. The tour will continue with the visit to the *Silver Museum* where guests will admire not only a large collection of cameos and the so-called *Galanterie ingioiellate* of Anna Maria Luisa, the last Medici, but also one of the most important collections of jewels made between the 17th and the 20th century by prominent Italian and European workshops.

Finally, guests will continue their tour of Florentine jewels at Relais Santa Croce, where they can admire the frescoes, the marble stuccos and the prestigious collection of antique furniture and works of arts. At the Relais Santa Croce guests will have the impression of being the personal guests of the original owner, the Marquis Baldinucci, who built the palace as one of the most elegant and luxury residences of Florence - a very special place making it the ideal sequel to the tour into the discovery of Tuscan jewels.
